

KW Music Academy

Online Lesson Setup

Minimum requirement to get started:

Fast broadband (minimum 20mbps download speed and 8mbps upload. Faster the connection the better)

Preferably have your device hard wired into the router using an Ethernet cable rather than WiFi. (WiFi can work if strong signal).

A laptop/PC (external webcam needed) **or** an Apple Ipad (or an equivalent quality tablet) (If you are using a tablet then an adaptor will be needed for Ethernet connection).

Webcam/iPad stand to position view of hands at the correct angle

Headphones

Mid level setup for an enhanced learning experience:

Super fast broadband

Desktop computer/laptop (preferably with webcam on) with external Webcam to position over your hands.

USB microphone (e.g Blue Snowball/Yeti or Rode NT USB mini)

Professional setup (advanced pianists):

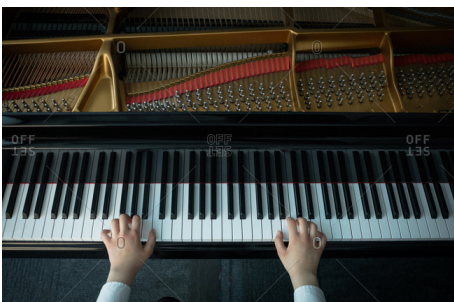

As above with multiple devices connected to the same meeting.

KW Music Academy

If using a singular device such as an iPad, position the Camera angle as shown. When deciding you're positioning, bear in mind you will need to be able to see the tutor on the screen.

When using an external web cam attached to a laptop/desktop computer, then an overhead camera angle can be used:

A usb microphone such as the *Blue* “Snowball” or Yeti are very useful for a quality experience.
